PVTA will provide circulator service in Palmer. The Quaboag Connector will provide circulator service in Ware. In addition, The Quaboag Connector is proposing the addition of a Belchertown-Ware Shuttle that will provide additional service to the town of Ware.

The proposed changes to the Ware-Palmer Shuttle provide the following:

- Trips to Springfield Union Station change to a morning and a midday trip.
- Increases the number of round trips (from 1 trip to 2 trips) to the Eastfield Mall. A morning and an afternoon trip will be provided. Both trips will connect with the B7 Service.
- Provides 4 trips (instead of 3 trips) to Three Rivers. All 4 trips will start at the Palmer Big Y, follow Park Street to the Dollar General, return via South Main Street and continue to Three Rivers and Bondsville along the current route.
- Adds service to Bondsville. We propose resuming service to Bondsville with 4 trips to Bondsville daily.
- Increases the number of round trips (from 4 trips to 7 trips) between the Palmer Big Y and Ware Walmart.
- Increases the number of round trips (from 4 trips to 9 trips) between the Ware Walmart and Ware Center.
- The proposed Belchertown Spencer Shuttle provides as much service in Ware as the circulator but provides more comprehensive service within the community.
- Still provides 5-daily trips in Ware.
- Provides same-day microtransit service for connections to the fixed route as well as same day service for certain on-demand trips.

Paul Burns stated the following on the Amherst-Worcester Intercity Pilot route:

- Funded by Section 5311(f) Intercity Bus Program: federal funds competitively distributed by MassDOT
- The national objectives for the Intercity Bus Program are to support the connection between rural areas and the larger regional or national system of intercity bus service, helping to meet the intercity travel needs of residents of rural areas
- The Amherst-Worcester (Rt. 9 Local) route was identified as a service gap and recommended in MassDOT’s 2015 Regional Bus Network Assessment and Quaboag Connector Needs

The Grant specifies that the Amherst-Worcester Intercity Route:

- Fill service gaps along Route 9 between Ware and Worcester using an intercity service model
- Provide connections from rural towns to urban centers in Worcester and the Pioneer Valley
- Provides stops in the following communities to connect with urban center, Amherst, Belchertown, Ware, West Brookfield, and Leicester

- Partnership between PVRTA and the Quaboag Connector to operate the pilot service connecting Amherst and Worcester
- Intermediate stops at Amherst Center, Belchertown, Ware, West Brookfield, Brookfield, East Brookfield, Spencer, Leicester

The proposed pilot route:

- 49-mile route segment operating primarily along MA Route 9 corridor
- 1 hour and 45 minutes travel time
- 3-daily round trips on weekdays, Saturday, and Sunday
- Timed connections with MBTA commuter rail trains to/from Boston
- Distance-based fares ranging from \$1.50 within PVRTA’s service area and \$3.50 to \$9.00 outside PVRTA’s service area

Brian O’Leary: Objects to not pulling into the Belchertown Commons and just staying on Route 9.
