Travel Training with PVTA

What is Travel Training?

Travel training is a self-paced process that teaches seniors and people with disabilities how to safely and independently use the public bus.

Travel destinations are the trainee's choice and can include: work, school, medical appointments, and recreation sites.

Who Should Participate?

Seniors and individuals with mobility impairments who wish to become more independent. Your residence and destination should be on or near a public bus route.

Training Process:

A mobility instructor will travel with you to your desired destination at times of your convenience, and teach you skills and techniques for safe travel.

Training is conducted in a series of steps from initial one-on-one instruction to the gradual fading of trainer assistance leading to independent travel.

The instructor will stay with you until you feel comfortable and confident riding the bus.

Costs:

Travel training is provided free-of-charge except for your bus fare while training is taking place.

Benefits of Travel Training:

- Enhances freedom, mobility and independence
- Provides access to safe and low-cost transportation
- Increases self-confidence
- Promotes healthy living by helping you stay active in the community
